EXAMINER'S AMENDMENT

Remark

- This Office Action is in response to applicant's amendment filed after final rejection, on August 7, 2007, that will be entered into the file.
- By this amendment, the applicant has amended claims 1, 11, and 30 and has canceled claim 29.
- Claim 1 is allowable. The restriction requirement, as set forth in the Office action mailed on January 26, 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claim 2-9 directed to species A, B, C, and E no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 13-26, directed to non-elected species withdrawn from consideration because they do not require all the limitations of an allowable claim.**

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

- Claims 1-12, 27-28 and 30 remain pending in this application.

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 13-26 directed to species non-elected without traverse. **Accordingly, claims 13-26 have been cancelled.**

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: of the prior art references considered, none has disclosed a tunable *optical filter* for *transmitting* a band of wavelength centered about a *bandpass wavelength* that is tunable over a second *wider band (a range of 3-12 microns*, as recited in claim 30), wherein the filter is comprised of a *first and second reflectors* held in the manner explicitly stated in the claims, a *partitioned cavity* including a *first dielectric layer* on the first reflector, a *variable air gap* and a *second dielectric layer* on the second reflector, said the partitioned cavity having an *effective optical thickness* substantially equal to an integral multiple of one half of the bandpass wavelength and having an *effective refractive index greater than two* and said first and second dielectric layers each having an *optical thickness less than* one fourth of the shortest wavelength within the second wider band.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
